## Solid Surface materiale

Det specielle Ideavit Solid Surface materiale: et avanceret materiale med eksklusive egenskaber.

Ideavit Solid Surface er et kompositmateriale, der består af 60% aluminiumtrihydrat (ATH), et hvidt naturligt mineralpulver afledt af bauxit, 38% polyesterharpiks og resten består af katalysatorer, hærdere, pigmenter og MMA.

Denne unikke kombination giver Ideavit Solid Surface flere eksklusive funktioner:

- Inert og ikke giftigt materiale.
- Homogen og kompakt langtidsholdbar ikke porøs overflade.
- Høj grad af UV-resistens, hvilket hæmmer misfarvning over tid.
- Praktisk talt brandsikker med lav varmeledningsevne og høj isoleringsevne.
- Hygiejnisk og udbredt i sundhedssektoren grundet den lukkede overflade, hvilket sikrer mod aflejring af bakterier og snavs.
- Rengøringsvenlig og kræver minimal vedligeholdelse.
- I tilfælde af ridser kan de repareres på stedet med slibende svampe.

Næsten alle Ideavit produkter er fremstillet i en hel form uden synlige samlinger, hvilket resulterer i en sømløs finish med en mat, glat, fløjsagtig tekstur.

Takket være den høje hvidhed, som dens hovedingrediens (ATH) giver, generer Ideavit Solid Surface et rent og lyst produkt, der unikt kombinerer æstetik og funktionalitet.

## ***The Ideavit Solid Surface Material***

*The Ideavit Solid Surface material: an advanced material with exclusive features.*

*The IDEAVIT Solid Surface is a composite material made up of 60% Aluminum Trihydrate (ATH), a white natural mineral powder derived from bauxite, 38% polyester resins, and the remainder consisting of catalysts, hardeners, pigments, and MMA.*

*This unique combination gives IDEAVIT Solid Surface material several exclusive features:*

- Inert and non-toxic.*
- Homogeneous and compact.*
- Highly resistant, durable, and non-porous*
- It has a high degree of UV resistance, inhibiting discoloration over time.*
- It is practically fire-proof with low thermal conductivity and high insulative capacity.*
- It is hygienic and widely used in healthcare sectors due to the absence of perceptible joints, avoiding the deposition of bacteria and dirt.*
- It is easy to clean and requires minimal maintenance.*
- Restorable, able to be repaired on the spot with abrasive pads in case of scratches.*

*Almost all IDEAVIT products are made by mold in one single piece with no joints, resulting in a seamless finish with a matt, smooth, velvety texture.*

*Thanks to the high whiteness conferred by its main ingredient the ATH, IDEAVIT Solid Surface generates a pure and bright product that uniquely combines aesthetics and functionality.*

## Badekar

---

Et af de vigtigste produkter på badeværelset er badekarret.

Vores serie af badekar er designet med slanke linjer, elegante former og minimal æstetik, produceret i det fine Ideavit Solid Surface materiale.

Med en række forskellige former tilgængelige i fritstående, back-to-wall og indbyggede versioner, kan du skabe din egen spa derhjemme.

Den hvide farve og fløjsbløde tekstur af overfladen bidrager til badekarrets overordnede appel og fremmer afslapning.

Desuden kommer nogle af vores badekar i en række farver og på nogle af dem kan du vælge en farve på udvendig side og stadig den flotte mathvide farve på indvendig side.

## *The Bathtubs*

---

*The Most Essential Item in your bathroom: The Bathtub*

*Our collection of bathtubs is designed with sleek lines, elegant forms, and minimal aesthetics, crafted from top-of-the line Ideavit Solid Surface Material.*

*With a variety of sizes and shapes available in freestanding, back-to-wall and built-in styles, you can create your own luxury spa at home.*

*The white color and velvety smooth texture of the surface add to the bathtub's overall appeal and promote relaxation.*

*Moreover, some of our bathtubs come in a range of colors and finishes, with a "color outside - white inside" design on specific models, and the full-body color variant on others which both serve to elevate their aesthetic appeal.*

## Badekar i mathvid akryl

---

Ideavits akrylkar er produceret i en særlig overlegen mat overfladefinish. Det er vakuumformede plader af højkvalitets sanitær akryl i en tykkelse på 5 mm.

Den fløjsagtige matte finish, et karakteristisk træk ved akrylkarrene, forbedrer følelsen af glathed og silkeblød tekstur i disse elegante badekar.

## *The acrylic white matt bathtubs*

---

*Ideavit's acrylic bathtubs are expertly crafted from vacuum-formed sheets of high-quality, sanitary acrylic at a thickness of 5mm and are all designed with a superior matt surface finish.*

*Their velvety matt finishing, a distinctive feature of the Ideavit acrylic bathtubs, enhances the feeling of smoothness and silky texture of each of these sleek and elegant bathtubs.*

*All these options are designed to spark inspiration and help you create the perfect bathroom for your needs.*

## Vægmonterede håndvaske

---

Vægmonterede håndvaske kommer i mange varianter, fra de helt små til gæstetoiletet og op til størrelser hvor flere kan stå og vaske hænder samtidig.

Vores mål med serien er at forbedre forbrugerens oplevelse ved at levere ergonomiske former og designs, der henvender sig til rum i alle størrelser, store som små.

Derudover kommer de fleste produkter med indbyggede funktioner såsom hylder, håndklædestænger og skuffer, som yderligere øger funktionaliteten. Med minimalistiske egenskaber og en bred vifte af dimensioner tilbyder disse håndvaske adskillige løsninger til at indrette dit badeværelse på en smart og kreativ måde.

## *The Wall-Mounted Basins*

---

*The Ideavit Collection boasts an array of wall-mounted washbasins that come in various sizes, from smaller to larger.*

*Our goal with this collection is to enhance the consumer's bathroom experience by providing ergonomic shapes and designs that cater to spaces of all sizes, big or small.*

*Additionally, most products come with built-in features such as shelves, towel bars, and drawers, which further increase their functionality. With minimalistic features and a wide range of dimensions, these washbasins offer numerous solutions for defining space in a smart and creative way.*

## **Bowler til bordmontering**

---

Et stort sortiment af bowler til bordmontering i en række forskellige former og størrelser, med slanke og bløde linjer, der tilpasser sig enhver indretning på badeværelset.

Varianterne i mathvid forbliver tidløse, men er du ude efter et unikt touch på badet, kan du vælge farvede eller en kombination af farve udvendig og mathvid indvendig.

## ***The Free-Standing Basins***

---

*A wide range of freestanding washbasins in a variety of shapes and sizes, with sleek and soft lines that adapt to all contemporary bathroom styles.*

*While our pure white matt version remains timeless, we also offer full body colour and “colour outside/white matt inside” variants for a unique touch.*

*In essence, this collection aims to embody simplicity, elegance, and functionality all in one package.*

## Tilbehør

---

Fuldend stilen og funktionaliteten på dit badeværelse med Ideavit Solid Surface tilbehør.

Gør dit badeværelse komplet med tilbehør, der tilføjer både nytte og finesse. Ideavit tilbehør tilbyder alt, hvad du behøver for at gøre dit badeværelse komplet.

Her er nogle af de produkter, der findes i serien:

- Bakker: Med kvadratiske, rektangulære og runde former at vælge imellem tilbyder disse bakker en fremragende opbevaringsløsning til dit tilbehør.
- Beholdere: Opbevar dine væsentlige ting eller smykker i disse smarte beholdere.
- Tablet holder: Slap af og se din yndlingsserie, mens du tager et afslappende bad.

Derudover indeholder serien hylder, taburetter og borde.

## *The Accessories*

---

*Enhance Your Bathroom's Style and Functionality with Ideavit Solid Surface Bath & Home Accessories.*

*Make your bathroom complete with accessories that add both utility and finesse to the area.*

*Ideavit's Solid Surface Bath & Home collection offers everything you need to perfect your bathroom's finishing touches.*

*Here are some of the products that are available in the collection:*

- *Trays: With square, rectangular, and round shapes to choose from, these trays offer an excellent storage solution for everyday items.*
- *Vanity cases: Keep your essentials or jewelry in these chic cases.*
- *Tablet holder: Relax and browse your favorite content while soaking in the tub with this convenient holder.*

*Moreover, the collection features shelves, stools, and tables that can be used to enhance your bathroom's interior design.*

# Produkter af beton

---

Beton er kendt i byggebranchen for sin enestående styrke og alsidighed.

Betonprodukter er lavet af en kombination af cement, fine tilsætningsstoffer, vand, polymerer og glasfiber, som alle er internationalt anerkendt betonblandinger.

Ideavits produkter adskiller sig ved de er forseglede med et produkt, som også anvendes i fødevarerindustrien, som ikke gulner, er vandtæt og er meget modstandsdygtig overfor slitage.

Desuden gennemgår hvert produkt en nano-coating-procedure, der involverer påføring af en superhydrofob coating, et tyndt overfladelag, der afviser vand.

Serien indeholder en række beton- og terrazzo håndvaske i høj kvalitet og et fantastisk badekar.

## *The Concrete Collection*

---

*Concrete is widely known in the construction industry for its exceptional strength and versatility.*

*Ideavit's concrete products are made from a combination of cement, fine aggregate, water, polymers, and glass fiber, all of which are internationally recognized concrete mixes.*

*What sets Ideavit's products apart is that they are pre-sealed with a food-industry sealant that neither yellows nor flakes and is highly resistant to abrasion and waterproof.*

*Moreover, each product undergoes a nano-coating procedure that involves applying a superhydrophobic coating, a thin surface layer that repels water. At Ideavit, we have transformed this material into an exceptional bathroom line that showcases its full potential.*

*Our Concrete Bathroom Collection features a range of top-quality concrete and terrazzo washbasins and a stunning bathtub. With its chic and modern design, this collection sets a new standard for contemporary bathroom aesthetics, showcasing the top edge of concrete craftsmanship.*

## Ideavit Solid Surface Rengørings- og vedligeholdelsesvejledning

---

Ideavit Solid Surface kræver minimal vedligeholdelse.

Til den daglige rengøring efter hver brug skal du blot tørre efter med en blød klud for at fjerne eventuelt snavs på overfladen. Ved hårdere snavs anbefaler vi at rense overfladen med gel eller slibende rengøringsmiddel (bredt tilgængelig i supermarkedet) og herefter skylle godt med vand under 60 grader Celcius

Eventuelle ridser kan fjernes ved at bruge en let slibesvamp: rengør området ved at lave cirkulære bevægelser, og skyl efter med rent vand. Brug derefter en tør, blød klud til at tørre området. Det anbefales ikke at bruge petroleumbaserede produkter ved rengøring (dsv. acetone, maling-fortynder eller andre lignende produkter), da de kan beskadige overfladen.

Bemærk: Personlige hygiejneprodukter og kosmetik beskadiger ikke overfladen.

### ***The Ideavit matt Solid Surface products : cleaning and maintenance***

---

*The Ideavit Matt Solid Surface products require minimal maintenance.*

*For everyday cleaning after each use, simply wipe with a soft cloth to remove any surface dirt.*

*For tougher marks we recommend cleaning the surface with gel or abrasive detergent (widely available in the market, i.e. Jiff) then rinse well (water under 60 degrees Celcius).*

*Eventual scratches can be removed by using a light abrasive sponge:*

*Clean the affected area by making circular movements, then rinse it out with water, afterwards use a dry soft cloth to dry the area.*

*It is recommended not to use petroleum-based products when cleaning (i.e. acetone, paint-thinner, or other similar products) as they may damage the surface.*

*Note: Personal hygiene products and cosmetics do not damage the surface.*

## Rengørings- og vedligeholdelsesvejledning af akrylkar

---

Rengøring af et akrylkar kræver omhyggelighed og den rigtige tilgang. Udover specifikke rengøringsprodukter, der er tilgængelig på markedet, kan daglige ingredienser såsom opvaskemiddel og hvidvinseddike hjælpe med effektivt at rengøre dit badekar.

### Her er en enkel og effektiv vejledning:

#### Trin:

- 1: En naturlig rengøring og desinfektion af dit badekar kan gøres med hvidvinseddike blandet med destilleret vand.
- 2: Tilsæt et par dråber citronsaft til opløsningen. Citron er kendt for sin evne til at fjerne hårde aflejringer, hvilket efterlader dit badekar desinficeret og deodoriseret.
- 3: Påfør opløsningen med en blød svamp og skrub forsigtigt de overflader der skal behandles.
- 4: Ved snavs eller pletter på svært tilgængelige steder, kan du bruge en gammel tandbørste og skrubbe forsigtigt.
- 5: Lad opløsningen virke i 5 minutter og skyl derefter grundigt med vand.

#### Tips:

- Ved genstridige pletter og gule misfarvninger forårsaget af f.eks. badeolie er eddike med lidt salt også et tip til rengøringen. Eddike og citron er en mirakelkur mod rust og kalkpletter. Påfør let fortyndet citronsyre eller eddike på de overflader, der skal behandles, og lad det virke i 20 minutter. Skyl derefter grundigt og skrub med en blød klud eller svamp.
- Alternativt er borax og bagepulver andre naturlige materialer, du også kan bruge.

### Sådan fjerner du hårfarve fra et akrylkar:

For at fjerne hårfarve fra et akrylkar skal du tilføje en halv kop bagepulver til vandet. Den brusende effekt hjælper med at fjerne pletterne. Lad blandingen af eddike og bagepulver forblive i karret i 10 minutter og skyl derefter med varmt vand.

### Undgå:

Brug af olier og cremer under badning, da disse kan efterlade rester i rørene. Anvend helst et filter for at begrænse mængden af kalk i dine rør

## **The Ideavit Acrylic matt products : cleaning and maintenance**

---

*Cleaning an acrylic bathtub requires carefulness and the right approach. In addition to specific cleaning products available on the market, everyday ingredients such as dish detergent and white wine vinegar can serve excellently to effectively clean your acrylic bathtub.*

**Here are simple and effective cleaning instructions:**

**Steps:**

- 1: If you're seeking natural cleaning and disinfection for your acrylic bathtub, take white wine vinegar and mix it with distilled water.*
- 2: Add a few drops of lemon juice to the solution. Lemon is known for its ability to remove hard water deposits, leaving your bathtub disinfected and deodorized.*
- 3: Apply the solution with a soft sponge and gently scrub the surfaces to be treated of the acrylic bathtub.*
- 4: For dirt or stains in hard-to-reach places, use an old toothbrush, dip it in the solution and scrub gently.*
- 5: Let the solution act for five minutes and then thoroughly rinse with water.*

**Tips:**

- For stubborn stains and yellow discoloration caused by, for example, bath oils, vinegar with a little salt is also a tip for cleaning. However, vinegar and lemon are a miracle cure against rust and lime stains. Apply lightly diluted citric acid or vinegar to the surfaces to be treated and let it work for about 20 minutes. Then rinse thoroughly and scrub with a soft cloth or sponge.*
- Alternatively, borax and baking soda are other natural materials you can also use.*

**How to get hair dye off an acrylic tub:**

*To remove hair dye from an acrylic bathtub, add half a cup of baking soda to the water. The fizzing effect helps remove the stains. Let the mixture of vinegar and baking soda remain in the bathtub for 10 minutes and then rinse with warm water.*

**To Avoid:**

*Avoid using oils and lotions during bathing, as these can leave residues in the pipes. Preferably use a filter to limit the amount of lime in your pipes.*

## Rengørings- og vedligeholdelsesvejledning af betonprodukter

---

### Rengørings- og vedligeholdelsesvejledning

For at holde dine beton- og terrazzovasker og badekar i optimal stand, skal du følge instruktionerne nedenfor:

#### **Regelmæssig rengøring:**

Sørg for regelmæssig rengøring for at forhindre ophobning af almindelige rester såsom tandpasta og håndsæbe. Dette hjælper med at bevare æstetikken og holdbarheden af betonprodukterne.

#### **Mildt rengøringsmiddel:**

Brug kun mild sæbe, når du rengør din vask, og skyl grundigt efter med varmt vand. Tør derefter af med en blød klud for at forhindre pletter.

#### **Undgå:**

- Stærke rengøringsmidler og syrer som ammoniak, blegemiddel, alkohol og glasrens. Disse kan beskadige overfladen og forkorte produkternes levetid.
- Stålbørster og slibende rengøringsmidler for at forhindre slid på produktets overflade. Vælg bløde materialer for at beskytte produktet.
- Hårde eller skarpe genstande, der kan forårsage ridser. Vær forsigtig, når du bruger genstande, der kan beskadige overfladen.

#### **Yderligere vedligeholdelse:**

Vi anbefaler en voksbehandling hver 6. måned for bedst at vedligeholde produkterne. Det hjælper med at bevare glansen og beskytter overfladen mod mulig skade.

## ***The Ideavit Concrete products : cleaning and maintenance***

---

*To keep your concrete and terrazzo sinks and bathtubs in optimal condition, please follow the instructions below:*

### ***Regular Cleaning:***

*Ensure regular cleaning to prevent the accumulation of common residues such as toothpaste and liquid hand soap. This helps maintain the aesthetics and durability of Ideavit concrete products.*

### ***Mild Cleansers:***

*Use only mild soap when cleaning your sink and rinse thoroughly with warm water.  
Then dry with a soft cloth to prevent stains and keep the surface in optimal condition.*

### ***Avoid Using:***

- Strong cleaners and acids such as ammonia, bleach, alcohol and glass cleaners. These can damage the surface and shorten the life of the products.*
- Wire brushes and abrasive cleaners to prevent wear on the surface of the sink. Choose soft materials to protect the product.*
- Hard or sharp objects that can cause scratches. Be careful when using items that can damage the surface.*

### ***Additional Maintenance:***

*To best maintain Ideavit concrete products, a wax treatment is recommended every 6 months. This helps maintain the shine and protects the surface from possible damage.*

*By following these simple guidelines, you can ensure that your Ideavit concrete products maintain their quality and last a long time.*

## Salgs- og leveringsbetingelser

---

Prislisten er gældende i hele 2024 og der tages forbehold for trykfejl og prisændringer.

Farvegengivelsen på produkterne kan variere fra virkeligheden og vi forbeholder os retten til ændringer og tekniske forbedringer af produkterne.

Der må påregnes cirka 10% i fragtomkostninger på fakturaens nettoværdi.

Varer tages kun retur efter forudgående aftale og hvis varen er i original emballage (badekar uudpakket).  
Der må forventes returomkostninger.

## ***Terms & conditions of sale***

---

*This price list is valid throughout 2024 and reservations are made for printing errors and price changes.*

*The color rendering of the products may vary from reality and we reserve the right to make changes and technical improvements to the products.*

*Approximately 10% of shipping costs must be calculated on the net invoice value.*

*Goods can only be returned after prior agreement and if the goods are in original packaging (bathtub unpacked).*

*Return costs must be expected.*
