Introducing the new Ideavit Solid Surface collections.

Design that speaks softly, yet leaves a strong impression.
With our latest additions, Ideavit continues to explore the balance between form, material, and everyday comfort — where design clarity meets timeless Solid Surface quality.

The SolidTetris Wall-mounted Washbasins

Structured design. Clean geometry. Integrated function.

The Tetris Collection introduces an architectural approach to the bathroom, defined by strong linear forms and clear proportions. Wall-mounted washbasins, some with integrated storage solutions, offer structure, order, and visual clarity. Crafted from high-quality solid surface material, each piece features sharp exterior lines combined with a softly contoured interior, ensuring comfort, durability, and seamless integration into contemporary residential and professional spaces.

The Cream Solid Surface color.

Warm. Natural. Refined.

The new Cream Solid Surface color introduces a warm, earthy tone that adds serenity and sophistication to the bathroom.
Crafted from a fully homogeneous solid surface material, the color runs through the entire body of the product — not surface-coated — ensuring consistency, durability, and a refined appearance over time.
Available in a selected range of Ideavit washbasins and perfectly matching existing collections, including Solidera bathtubs, Cream, allows harmonious and cohesive interior compositions.
